
Welcome!

Posted by Administrator - 2008/01/24 17:12

Welcome to the Red Lodge Clearinghouse Discussion Forum! We hope this forum will allow you to connect with others working to solve natural resource problems in innovative ways.

We're trying to get a better sense of who uses the site. In what industry or sector do you work? What interests you about the site?

I am both a contributor to and a user of the site. I, with the help of some research assistants, am responsible for most of the materials under the "Laws" tab. I'm also a user of the site -- I use the Laws tab to give me quick access to the major natural resources laws, regulations, guidelines, handbooks etc. -- either through the direct links in the text of a particular topic or in the "Links" section at the end of each major law or subject area. I also use the "Finding Federal Law" section under the "Laws" tab to remind myself of how to find a particular resource for my work.

I hope you find the section useful too. And we'd be happy to add materials on specific topics or in response to specific questions. Kathryn Mutz, Natural Resources Law Center
